SUMMARY

I am an experienced Flutter developer with approximately 2 years of hands-on expertise in building innovative mobile applications. I am an enthusiastic individual who is passionate about learning and has a deep interest in the details of application development. My aspiration is to build a dynamic and meaningful career in the field of mobile development, where I can continuously enhance my skills and make a maximum contribution. With a strong understanding of Flutter, proficiency in State Management, and the ability to write clean code, I am ready to deliver creative and efficient solutions in mobile application development.

WORK EXPERIENCE

PROJECTS

Pusaka Apps

- Developed Digital ID Feature to transforms your ID documents, such as ID cards, Marriage Certificates, etc, into secure digital documents.
- Developed Face Liveness feature to verify the user's authenticity by detecting facial movements to ensure that the user is a real person.
- Developed Face Matching feature to compare one's face with another to confirm identity, ensuring correlation between the live image and the ID photo.
- Developed The Religious Information feature. This feature serves as a comprehensive knowledge source about Islam, Christianity, Catholicism, Hinduism, Buddhism, and Confucianism.
- Developed PPOB feature. This feature offers a platform for a variety of payment services, including purchasing electricity tokens, postpaid phone bills, electricity bills, gas, etc.

NU CARE LAZISNU

- Developed the Prayer Schedule feature, allowing users to set reminders for prayer times. Customize notification sounds and add pre-adhan reminders.
- Developed the Ziswaf feature in NU Care LAZISNU, allowing users to make zakat, infaq, and shadaqah payments conveniently through the application.
- Developed 'Manage Profile' feature. This feature enables you to edit your profile, set a PIN, activate biometrik, and manage security settings with ease.
- Developed notification feature using Firebase technology, allowing users to subscribe and unsubscribe from topics.

Teman Bunda Ita

- Developed 'Volunteer Management' feature provides a service to manage volunteers from the city/district level to the village level.
- Developed 'Volunteer Agenda' feature to offers information about upcoming events.
- Developed 'Real-Time Vote Count' feature.
- Developed 'Witness Attendance' feature to allows TPS (Polling Station) volunteers.
