SUMMARY

I am an experienced Flutter developer with approximately 2 years of hands-on expertise in building innovative mobile applications. I am an enthusiastic individual who is passionate about learning and has a deep interest in the details of application development. My aspiration is to build a dynamic and meaningful career in the field of mobile development, where I can continuously enhance my skills and make a maximum contribution. With a strong understanding of Flutter, proficiency in State Management, and the ability to write clean code, I am ready to deliver creative and efficient solutions in mobile application development.

WORK EXPERIENCE

Mobile Developer   Nov 2022 - Present
Pt. Venturo Pro Indonesia   Malang, Jawa Timur | Full- Time

- Developed PPOB payment via AGI Cash in INISA app using GetX State Management.
- Maintenance INISA APP for Security Reason
- Developed Pusaka App for Android and iOS using Flutter technology with GetX as the state management, ensuring a seamless cross-platform user experience.
- Taking on the role of Co-Mobile Programmer for the Pusaka project, leading a team of mobile programmers to drive successful project development.
- Uploading the Pusaka app to both the Play Store and App Store, ensuring it's accessible to a wide audience on Android and iOS platforms.
- Collaborated effectively with a diverse team, including Backend, Front-End, QA, and others.

Mobile Developer   Jul 2022 - Des 2022
Kediri App   Kediri, Jawa Timur | Freelancer

- Designed and developed the 'My Leadership' Android app to assess public interest in candidates. Using Flutter and GetX for state management and successfully uploaded it to the Play Store for wider accessibility.
- Collaborated effectively with a diverse team, to achieve project goals and ensure seamless coordination in all aspects of development.
- Developed the Android mobile app 'Teman Bunda Ita' for managing political volunteer information for Mrs. Ita. Utilized Flutter technology with Provider as the state management and successfully uploaded the application to the Play Store for wider accessibility.

Intern Mobile Developer   Jan 2022 – Feb 2022
BNNP Jawa Timur

- Designed and developed the 'Simpel BNNP Jatim' Android mobile app to provide services like urine test request, appointments, rehabilitation, complaints, and a chat feature with BNNP Jatim for an easy and efficient communication channel for questions, feedback, or assistance. Utilized Flutter technology with GetX as the state management and Firebase for Real-Time Chatting Database. And successfully uploaded the application to the Play Store.

PROJECTS

Pusaka Apps

- Developed Digital ID Feature to transforms your ID documents, such as ID cards, Marriage Certificates, and Halal Certificates, into secure digital documents. As well as Develop Face Liveness feature to verify the user's authenticity by detecting facial movements to ensure that the user is a real person.
- Developed Face Matching feature to compare one's face with another to confirm identity, ensuring correlation between the live image and the ID photo.
- Developed The Religious Information feature.This feature serves as a comprehensive knowledge source about Islam, Christianity, Catholicism, Hinduism, Buddhism, and Confucianism.
- Developed PPOB feature. This feature offers a platform for a variety of payment services, including purchasing credit, data packages, electricity tokens, postpaid phone bills, electricity bills, gas, water bills, etc.
- Developed 'Manage Profile' feature. This feature enables you to edit your profile, set a PIN, and manage security settings with ease.
- Developed 'Notifications' feature. This Feature allows users to receive instant notifications using Firebase technology.

Teman Bunda Ita

- Developed 'Volunteer Management' feature provides a service to manage volunteers from the city/district level to the village level.
- Developed 'Volunteer Agenda' feature to offers information about upcoming events and activities.
- Developed 'Voter Registry' feature to provides information about the voter list in each village, granting access to relevant data and supporting transparency in the election and voting process.
- Developed 'Door-to-Door Campaign' feature to allows volunteer management to organize door-to-door campaigns.
- Developed 'Real-Time Vote Count' feature to presents information on the total votes for candidates.
- Developed 'Witness Attendance' feature to allows TPS (Polling Station) volunteers to perform real-time attendance tracking.
